

TARIFF PICTURES.
This country produced 600,000 kegs of nails in 1886, and we thought that wonderful progress had been made when the production rose to 4,114,385 in 1891.

In 1891, but the rate of progress has since been maintained, as shown in a production of 4,719,024 in 1892.

In 1892 under the McKinley law, while the price was never so low as now, the production rose to 4,719,024.

MISTOOK ITSELF FOR THE PARTY.
Dayton Journal.—The Republican League has no business fooling about politics. The National Conventions every four years are the only legislative authority for parties in general. They are the congresses of all parties.

BUT HE'S A DEMOCRAT.
New York Press.—The Mugwumps in particular were loud in charging the Republican Secretary of the Treasury with doctored his official reports. But they have not a word to say about Secretary Carlisle, who follows the form of statement used by his predecessor.

SETTING UP THE PINS PREMATURELY.
Newark American.—There is but one opinion expressed in the press of the country of the platform adopted by the Republican League Clubs at Louisville, Ky., and that is that it was a work of presumption and gross indiscretion. Any attempt at running a wheel within a wheel and making the inner wheel master of motive power must fail. The Republican party speaks and acts only through its regularly elected representatives in convention.

DEMOCRATIC RESULTS.
New York Press.—It is now ten weeks since the new Democratic Administration came into office, and in that time the average prices of the active stocks on the New York exchange have steadily fallen until the decline in the past fortnight has been so sharp that the average price is lower than at any time in five years. In figuring this average no account is made of the industrial stocks, which do not figure at all in the calculation at that time. The decline in that class of securities has been even greater. Railroads are making smaller profits, manufacturers are going ahead with much greater caution, and the want of confidence inspired by the apparent indifference of the Administration has prevented legitimate business from receiving the support which it would naturally command.

THE CHINESE QUESTION.
Times Star.—The Supreme Court of the United States has affirmed the constitutionality of the Geary Act for the deportation of non-registered Chinese, five of the Justices affirming and four dissenting. Justice Harlan being absent.

In giving his dissenting opinion Justice Fuller characterized the act as "inhuman and brutal" and the decision of the court in sustaining it as "fraught with the gravest dangers to the principles of constitutional liberty of the people." Chief Justice Fuller and Justice Brewer also dissented. A motion was made for a rehearing and an argument before a full bench and the court took the motion under advisement.

Assuming that the Geary Act is constitutional, several other questions arise about which people will differ in opinion as widely as do the Justices of the Supreme Court. It is a sufficient defense that the Government has the power to expel Chinese lawfully and peacefully dwelling in the United States? It is not unworthy of a great and liberty-loving Nation that it should justify its acts on no higher ground than brute force and bloodshed?

Suppose China, following the American example, should expel all the Americans from China, simply because she has the power to do so. How could America protest? Or suppose that under a Know-Nothing Administration America should expel all Norwegians or Irish or Italians from American soil. Are the constitutional rights of any race more secure than those of the Chinese? Where is the line to be drawn between races under a constitution which forbids all discrimination on account of race? The Geary Act is un-American in that it deprives the accused of the right of trial by jury and compels him to be a witness against himself. It is ex post facto in its operation and takes away property at the hazard of malicious decision alone instead of at the verdict of one's peers. Well may Justice Field speak of such a measure as "fraught with the gravest dangers to the priceless constitutional liberties of the people."

THE NINGOMPOOPS ON DECK!

THE MASON COUNTY COURT OF CLAIMS, Esquire, IN ITS USUAL SMALL POTATO ROLE.

Representatives of the City Council Request a Respectful Hearing and Are Effectually "Snubbed"—Treatment That Would Not Be Accorded a Bum Tramp by a Respectable Representative Body.

The Board of Magistrates constituting the Court of Claims was met this morning under the idea that the city of Maysville is no part or parcel of Mason county.

No measure for the benefit of the city meets with their sanction, or if it secures favor at all it is only half-hearted and given with reluctance.

Now, consider that the citizens of the city of Maysville own nearly one-fourth of the property in the county and therefore pay that ratio of taxes.

Maysville people pay almost one-fourth the sum donated by the county for every cross-roads turnpike that is built.

The citizens of Maysville pay almost one-fourth of the cost of keeping the poor of the county, and yesterday the sum of \$905 was placed in the hands of various committees, to be used for the support of paupers, not one of whom, remember, is a citizen of Maysville, for they take care of our own poor and contribute more than any two other precincts to the maintenance of the county poor.

The majority Court of Claims of Mason county would rather burn a dollar up than give it to a poor man from Maysville.

Of the twenty-six Magistrates in the county but two are citizens of this city.

These gentlemen, generally speaking, look well to the local interests of their precinct, but let Maysville shift for herself, not forgetting, however, to rake up and ridicule taxes for their own comfort, a large proportion of which Maysville people are compelled to pay.

It is the opinion of some of the best lawyers that a portion of the taxes which we pay are not only unjust, but illegal and unconstitutional as well—namely the Turnpike and Bridge Tax.

It is safe to say, however, that none of this so-called illegal taxation benefits the city.

In regard to the much mooted jail question, Maysville paid her usual share for her incarceration and has not now the right to confine a city prisoner without paying for it.

A climax was reached yesterday afternoon when a committee of the Maysville City Council, headed by its President, was not only refused a general reception but actually and brutally snubbed.

This committee was composed of William H. Cox, President of the City Council and the largest individual taxpayer in the county, and Robert Fickling, J. I. Salisbury, H. R. Berber, L. C. Blatterman and C. H. Pearce, Jr., members of the Internal Improvement Committee—all reputable citizens, all members of the City Council, and all liberal taxpayers.

It went to Madison, Wis., and a statement in regard to the new second street bridge recently contracted for over Limestone creek.

When a previous bridge was built in 1879 the county subscribed \$2,000 toward its construction.

Since that time the city has paid over cent expended in the way of repairs.

If the Court of Claims should appropriate any sum now the citizens of the city would have to bear one-fourth of that burden and pay the rest of the cost of the bridge besides the county paying only one-third of the cost of the court might appropriate.

A. V. DUPONT, the richest man in Kentucky, died in Louisville. His wealth was \$3,000,000.

The remains of the late Mrs. Amanda M. Turman were laid to rest in the Maysville Cemetery yesterday.

Mrs. WALTON HARRINGTON CUTCHER, wife of Albert Cutcher, Solicitor of Lee, Angeles, Cal., and eldest daughter of the Rev. Dr. Howard A. M. Henderson, died at the latter's home at Hartwell, she was 25 years old. At her request the remains will be buried at Frankfort, the home of her youth, and her father will deliver the funeral discourse.

The freight earnings of the L. and N. Railroad at this station for April show an increase of \$93.34 over the same time a year ago.

The freight business of the C. and O. Railway at this station for April amounted to \$4,889.86, an increase of \$1,101.07 over same month last year.

LOUIS LINES of Charleston, W. Va., and Miss Lilla Waither, daughter of Mr. and Mrs. C. A. Waither of this city, will be married this evening at 8 o'clock at the residence of the bride's parents on East Second street. The wedding will be private on account of illness in Mr. Lines's family.

WEEKLY CROP BULLETIN.

Condition of Small Crops Throughout Kentucky to Date.

The weather conditions of the past week were generally more favorable to crops and farm work than those of the three preceding ones.

The temperature was very near the normal, though the nights were rather cool for the season. The first five days gave a nearly average amount of sunshine, while the last two were cloudy and rainy in most parts of the state.

The amount of rainfall was also very near the average, taking the state as a whole, but was very unevenly distributed. In the Central and Northern counties the average fall for the week was about 1.25 inches, which is nearly twice that received in other sections of the state.

The soil, particularly that of the bottom lands, has not yet fully recovered from the drenching rains of the past month, and though improving slowly it is in most places unfit to work. This fact makes farm work very backward.

Much corn planting yet remains to be done, though considerable progress was made with the work during the week. It is believed that much of the corn that is now in the ground has rotted and that replanting will be necessary. The general tone of reports is not so bright as it was a few weeks ago, except in the Northern and Eastern counties, where that which is above the ground is doing nicely.

Tobacco plants are reported to be unusually fine and very plentiful. In localities in the Southern tier of counties, where the soil could be made ready for them, considerable progress in the work of setting them out was made during the week. In many other places the plants are ready, but the wet condition of the soil precludes its preparation for them.

With the continuance of favorable weather, the work of transplanting will be in full progress in all parts of the state within the next ten days. All indications point to a considerable increase of acreage over that of last year.

There is hardly a dissenting opinion expressed among the many reports received as to the prospects for wheat. Most correspondents state that it never looked more promising than at present.

Oats is also in a generally excellent condition, though some few reports state it is not doing so well as it was earlier in the season.

Meadows, grasses and clover are all that could be desired.

The outlook for fruits is excellent, except in the few districts where they were injured by the April frosts. Many correspondents, particularly in the Southern and Western portions of the State, report that the fruit is looking for, Strawberries promise a good crop, but need sunning to ripen them.

Apples have greatly improved during the week, though there is a very general complaint of the unusual abundance of potato bugs.

The greatest need of all crops is abundant sunshine and warm weather, and with these conditions the best results may be expected. The weather during the past few days has been for clearing, followed by warmer Wednesday night and Thursday.
